EnviroSTIX™

APPLIED POLY-ACRYLIC ADHESIVE SYSTEM

21st Century Flooring Adhesive Solution!

- Ø Solves highmoisture concrete problems
- Ø Solves high relativehumidity problems
- Ø Eliminates indoor air quality problems
 - No odor/No VOC's

Elastomeric Scrim-Stabilized Adhesive!

- Ø Provides superior lateral stability
- Ø Provides permanent bond between clean surfaces
- Ø Remains flexible throughout the life of the floor
- Ø Will never dry, harden, crack or crystallize
- Ø No trowel marks telegraphing through the flooring material

Other Advantages!

- Ø Provides immediate use of floor after installation
- Ø Can be applied to all resilient flooring: roll/sheet goods up to 6' 8" wide as well as planks, and tiles (rubber, VCT, etc...)
- Ø Maintenance can be performed immediately
- Ø Not affected by typical atmospheric changes

With no cure time and no harmful vapors EnviroStix allows for immediate access for occupancy or other trades that require access. This is the perfect flooring adhesive solution for **sensitive environment** and/or **time critical projects** such as surgical and emergency units, nursing stations, assisted care facilities, schools, retail locations, and other high traffic areas.
