

GEMINI TAPE - DUAL-TECHNOLOGY DOUBLE SIDED ADHESIVE

GEMINI Tape is a pre cured ready to use double sided adhesive that combines two adhering technologies. On one side you have a very aggressive long-lasting adhesive and on the other a tacky yet releasable adhesive giving GEMINI Tape a wide range of uses.

- Best Rug hold product available
- Light duty wall mounting applications works where others mounting tapes do not
- General home and work adhesive applications

GEMINI Tape Benefits:

- Immediate usability
- Aggressive tackiness on one side and the ability to be removed then re-adhered to clean surfaces without leaving residual adhesive on the other side

*Some surfaces may not allow re-adherence of adhesive

- Non-toxic, odorless, and virtually VOC free

How to use GEMINI Tape:

1. Peel back on the red tab and expose the aggressive side of the GEMINI Tape
2. Unroll desired amount of GEMINI Tape and cut with scissors
3. Apply GEMINI Tape to the desired rug or carpet tile or item

(Be aware that the exposed adhesive is the more aggressive side and is meant for longer adhesion and is not meant to be removed after it has been adhered.)

4. Once applied to desired surface you now can remove the white paper liner to expose the less aggressive side of the GEMINI Tape

You now have the ability to adhere desired carpet, rug, or item to many types of surfaces and remove it without residue.

GREAT FOR:

- Mats
- Area Rugs
- Carpet Runners
- Wall Base (some surfaces)
- Trims & Moldings
(foam/vinyl/rubber)
- Arts & Crafts
- Hanging Temporary
Decorations
- Modular Flooring for
Temporary Installation

GUARANTEED TO RELEASE FROM:

- Sensitive Finishes
 - Finished Hardwood
 - Ceramic Tile
 - Sheet Goods
 - Some Painted Surfaces
 - Polished Terrazzo & Marble
- Note: Adhesive may separate from flooring or other materials during removal. Simply peel adhesive layer up after removal.
- Reapply additional Gemini tape to re-adhere.
