

MAKING THE ENVIROSTIX ADHESIVES SYSTEMS AVAILABLE FOR USE ANYWHERE!

The ES-2-GO is a mobile adhesive laminator used to apply the EnviroSTIX™ patented pre-cured, double-sided adhesive tape rolls to a wide variety of carpet tiles & modular resilient flooring. Adhesive application is quick and easy with the portable ES-2-GO™ Machine and Adhesive Rolls.

ES-2-GO™ SYSTEM

THINK OUTSIDE THE BUCKET™

- Pre-apply adhesive rolls in your warehouse or on your installation site
- Pre-cured adhesives mean no dry-time adhesive, allowing for immediate access job sites
- Peel and bond installations with no messy adhesive buckets
- Multi-material use allows lamination of adhesive to flooring or other trims
- Adhesive applications include carpet tiles, resilient flooring, carpet base, rubber base, and more
- No odors

ES-2-GO™ Rolls are custom cut to match your material widths. All **ES-2-GO™** Rolls are 100' standard length.

ES-2-GO™ Machine purchase options include a one-time purchase or 24 month lease to purchase.
