

ES-2-GO™ System Description:

This system is used for the application of our ES-2-GO™ Rolls via the ES-2-GO™ Machine.

For a system warranty you must use the following Base King products together:

ES-2-GO™ Machine:

The ES-2-GO™ Machine is a Mobile Adhesive Applicator/laminator. It is used to apply adhesive to a wide variety of carpet tiles & modular resilient flooring types on the market up to 24" standard width.

ES-2-GO™ rolls:

ES-2-GO™ rolls are pre-cured, double-sided adhesive tape rolls designed for fast onsite or pre-application in your warehouse via the ES-2-GO™ Machine. ES-2-GO™ Rolls are custom cut to match your material widths. All ES-2-GO™ Rolls are 100' standard length.

One of the Base King Primers either ES-P or ES-MBP:

ES-P: For use on projects under 96.0% RH

ES-MBP: For use on projects up to 100% RH

... And you must register the project per the registration instructions.

Machine Purchase Options:

One Time Purchase
